We expect our Oil & Gas coverage universe to report a mixed Q1FY27 performance, with RIL/GOLI/DEEPIIN outperforming, while gas utilities and CGDs to remain under pressure owing to elevated input costs and supply disruptions. The quarter witnessed a sharp increase in energy prices, with Brent crude averaging USD96.6/bbl (+44.6% YoY/23.4% QoQ), Spot LNG averaging USD17.6/mmbtu (+42.3% YoY/+33.3% QoQ), and the INR depreciating 10.6% YoY/3.3% QoQ to Rs94.6/USD, leading to higher gas sourcing costs. On the refining side, stronger product cracks supported margins, with GRM improving to USD24.5/bbl. Among the large caps, RIL is expected to report a strong quarter, with EBITDA growing 9.9% YoY to Rs471bn, driven by continued momentum in the Digital business, healthy Retail performance and a rebound in the O2C segment supported by higher throughput and improved diesel cracks.

In contrast, GAIL and Petronet LNG are likely to report subdued earnings, impacted by supply disruptions following the cessation of Qatar LNG exports. Petronet's total volumes are expected to decline ~24% YoY/QoQ, with EBITDA/Adj. PAT falling 25%/-26% YoY, while GAIL's EBITDA/PAT could decline 27%/11% YoY due to weaker transmission, trading and petrochemical margins.

Within CGDs, MGL and IGL are likely to deliver healthy volume growth of ~9%/8% YoY, respectively, although higher gas procurement costs and rupee depreciation are expected to keep EBITDA/scm under pressure despite sequential improvement. GEL (erstwhile GUJGAS) is expected to report strong sequential growth, driven by robust industrial demand from Morbi and the consolidation of the GSPC trading business. Gulf Oil Lubricants is likely to post double-digit volume growth (~11% YoY), though margins may soften sequentially due to higher base oil prices and INR depreciation despite successive price hikes. Deep Industries is expected to remain a standout performer, with revenue/EBITDA/PAT projected to grow 27%/24%/50% YoY, supported by higher asset utilisation and contributions from new business segments. Within our coverage, we continue to prefer RIL, Petronet LNG, Deep Industries and Gulf Oil Lubricants as our top picks.

RELIANCE: Reliance is expected to report EBITDA/PAT of Rs471bn/Rs197bn, up 9.9%/flattish YoY (6.8%/16.3% QoQ) supported by steady performance in Retail & continued momentum in the telecom business and rebound in O2C. Jio's revenue is likely to grow ~13% YoY/3% QoQ, driven by a ~6.5% YoY increase in subscriber base along with a ~1% sequential improvement in ARPU to ~Rs216 (vs Rs214 in Q4/Rs209 in Q1FY26). Retail EBITDA is expected to jump 12.4% YoY/3.7% QoQ, while revenue/sq ft to grow by 18.6% YoY/1% QoQ. In O2C, we expect throughput to jump 7.3% YoY/5.1% QoQ, the revenue is expected to increase by 35% YoY/13% QoQ while EBITDA to expand 15% YoY/QoQ, supported by improved diesel cracks amid a volatile environment.

CGD: Overall volumes for MGL/IGL expected to increase by 9%/8% YoY. Additionally, rupee depreciation (10.6% YoY/3.3% QoQ) has led to higher gas sourcing costs, resulting in YoY pressure on EBITDA/scm to Rs6.4/4.1, while expecting sequential improvement. For GEL (erstwhile GUJGAS), which now also includes the trading business of promoter group GSPC, is expected to report jump in Revenue/EBITDA/PAT of 52%/50%/83% QoQ (YoY not comparable). Morbi region is

expected to witness sharp jump in volumes due to the strong industrial consumption (with price hike) in absence of propane.

Gas Utilities: In our coverage both PLNG/GAIL are expected to report poor performance in Q1FY27, due to ceased operations from Qatar LNG (for exports), PLNG total volumes expected to decline by 22% YoY/QoQ, primarily due to lower utilization at Dahej, 66% and 29% at Kochi. EBITDA/Adj. PAT for the quarter is expected to decline by 25%/-26% YoY. GAIL's YoY performance is expected to remain subdued EBITDA/PAT down 27%/11% YoY on lower gas transmission/trading margins/petchem business amid supply disruptions.

GOLI & DEEPIND: GOLI's core/adblue volumes is expected to rise 14%/8% YoY in Q1FY27E, partly offset by muted margins. Overall volume expected to grow by double digit, ~11% YoY while EBITDA margin may dip sequentially in Q1FY27E. The margin decline is likely to be driven by INR depreciation and higher lubricant prices, while company indicated that it has been implementing successive price hikes. For DEEPIND, we anticipate 27% YoY rise in revenue owing to higher contribution from new assets and sustained business from existing contracts. EBITDA/PAT is expected to see a strong growth of 24%/50% YoY to Rs1bn/Rs655mn.

DISCLOSURES/APPENDIX

I. ANALYST CERTIFICATION

I, **Sudeep Anand, Prathmesh Kamath, Vidhi Shah**, hereby certify that (1) views expressed in this research report accurately reflect my/our personal views about any or all of the subject securities or issuers referred to in this research report, (2) no part of my/our compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed in this research report by **Systematix Shares and Stocks (India) Limited (SSSIL)** or its group/associate companies, (3) reasonable care is taken to achieve and maintain independence and objectivity in making any recommendations.

Disclosure of Interest Statement	Update
Analyst holding in the stock	No
Served as an officer, director or employee	No

I. **ISSUER SPECIFIC REGULATORY DISCLOSURES**, unless specifically mentioned in point no. 9 below:

- The research analyst(s), SSSIL, associates or relatives do not have any financial interest in the company(ies) covered in this report.
- The research analyst(s), SSSIL, associates or relatives collectively do not hold more than 1% of the securities of the company(ies) covered in this report as of the end of the month immediately preceding the distribution of the research report.
- The research analyst(s), SSSIL, associates or relatives did not have any other material conflict of interest at the time of publication of this research report.
- The research analyst, SSSIL and its associates have not received compensation for investment banking or merchant banking or brokerage services or any other products or services from the company(ies) covered in this report in the past twelve months.
- The research analyst, SSSIL or its associates have not managed or co-managed a private or public offering of securities for the company(ies) covered in this report in the previous twelve months.
- SSSIL or its associates have not received compensation or other benefits from the company(ies) covered in this report or from any third party in connection with this research report.
- The research analyst has not served as an officer, director or employee of the company(ies) covered in this research report.
- The research analyst and SSSIL have not been engaged in market making activity for the company(ies) covered in this research report.
- Details of SSSIL, research analyst and its associates pertaining to the companies covered in this research report:

Sr. No.	Particulars	Yes / No.
1	Whether compensation was received from the company(ies) covered in the research report in the past 12 months for investment banking transaction by SSSIL.	No
2	Whether research analyst, SSSIL or its associates and relatives collectively hold more than 1% of the company(ies) covered in the research report.	No
3	Whether compensation has been received by SSSIL or its associates from the company(ies) covered in the research report.	No
4	Whether SSSIL or its affiliates have managed or co-managed a private or public offering of securities for the company(ies) covered in the research report in the previous twelve months.	No
5	Whether research analyst, SSSIL or associates have received compensation for investment banking or merchant banking or brokerage services or any other products or services from the company(ies) covered in the research report in the last twelve months.	No

10. There is no material disciplinary action taken by any regulatory authority that impacts the equity research analysis activities.

STOCK RATINGS

BUY (B): The stock's total return is expected to exceed 15% over the next 12 months.

HOLD (H): The stock's total return is expected to be within -15% to +15% over the next 12 months.

SELL (S): The stock's total return is expected to give negative returns of more than 15% over the next 12 months.

NOT RATED (NR): The analyst has no recommendation on the stock under review.

INDUSTRY VIEWS

ATTRACTIVE (AT): Fundamentals/valuations of the sector are expected to be attractive over the next 12-18 months.

NEUTRAL (NL): Fundamentals/valuations of the sector are expected to neither improve nor deteriorate over the next 12-18 months.

CAUTIOUS (CS): Fundamentals/valuations of the sector are expected to deteriorate over the next 12-18 months.
